Full Stack Developer currently pursuing a degree in Systems Analysis and Development at PUCPR, with extensive experience in the health and education sectors. Possesses deep knowledge of JavaScript, TypeScript, Python, and Java, along with popular frameworks such as Next.js, React.js, Express.js, Springboot, and Quarkus; and related technologies like Redux.js, ContextAPI, React Hooks, Socket.io, Jest, Sequelize.js, bcrypt, JWT, and ESLint. Skilled in software design principles, including SOLID, OOP, Clean Architecture, Microservices, and MVC; experienced with databases such as MySQL, PostgreSQL, and MongoDB; and proficient in software quality practices like Clean Code, Code Review, CI/CD, Unit Testing, Integration Testing, and Automated Testing. Holds advanced English proficiency in conversation, writing, and reading. Open to new opportunities in the market as a Junior or Mid-level Full Stack Developer.

WORK EXPERIENCE

Freelancer Full Stack Developer

Self-employment - 06/2020 - Current

- Developed complete projects using Next.js, React, TypeScript, Microservices, Docker, and PostgreSQL, resulting in readable, flexible, and modular applications
- Worked in a team of 3 troubleshooting and analyzing issues to deliver executable code
- Solely created an SQL database to manage and update athletes' information, increasing operational efficiency by 30%
- Implemented the application with login, a control panel, and forms, reducing administration time by 80% for the end user

Full Stack Developer II (Mid-level)

Trybe - 11/2020 to 06/2023

- **Back End Developer II (Mid-level) - 03/2023 to 06/2023**
 - Developed complete projects using Node.js and TypeScript, creating readable, flexible, and modular applications
 - Created tutorials and software projects on Node.js and TypeScript for adult students, resulting in a 30% increase in completion rate for the backend module
- **Back End Developer I (Junior) - 06/2022 to 03/2023**
 - Was responsible for all unit and integration tests of tutorials and projects, ensuring a student implementation success rate of over 90% within regular delivery time
 - Led a team of 5 in reducing a backlog of over 600 improvement tickets by 45% in 2 months, resulting in a 20% increase in CSAT
- **Software Developer Junior - 07/2021 to 06/2022**
 - Provided valuable self-awareness and knowledge to students, improving their employability by 20%
 - Trained students in new programming languages through tasks and projects, resulting in a 50% increase in the hiring rate after course completion
 - Created JavaScript content for the community interested in enrolling in courses, improving student performance by 93% in 3 months
- **Software Developer Assistant - 11/2020 to 07/2021**
 - Reduced code complexity in JavaScript, Sequelize, and Express by converting external content into original material, increasing the company's brand value perception by 20%
 - Delivered a beverage delivery system in just two months, creating a comprehensive codebase using React, Socket.io, Sequelize, Express, Jest, and Node.js, resulting in a 20% reduction in system response time

TECHNICAL SKILLS

JavaScript • TypeScript • Node.js • Express.js • React.js • Next.js • Java • Spring • Quarkus • Hibernate • Python • Context API • Redux • React Hooks • HTML • CSS • SQL • NoSQL • Docker • MySQL • PostgreSQL • MongoDB • Sequelize • Prisma • GitHub Actions • Jest • Unit Tests • Integration Tests • Object-Oriented Programming (OOP) • SOLID • Socket.io • Tailwind • Styled Components • Clean Architecture • Git • GitHub • Markdown • Visual Studio Code • PyCharm • Eclipse • IntelliJ IDEA • Linux • Scrum • Kanban

LANGUAGES

Portuguese: Native

English: Advanced (C1)

EDUCATION

Systems Analysis and Development

Pontifícia Universidade Católica do Paraná - PUCPR - 08/2024 to 12/2026

Master's Degree in Physical Education

Universidade Federal do Paraná - UFPR - 02/2017 to 02/2019

COURSES AND PROFESSIONAL CREDENTIALS

AWS Certified Cloud Practitioner - 2024

AWS re/Start, Escola da Nuvem - 2024

Introduction to Programming with Python, CS50 Harvard - 2024

Foundations of Project Management, Google - 2023

Project Initiation: Starting a Successful Project, Google - 2023

Java Acceleration, Trybe - 2022

Productivity and Time Management, Conquer - 2022

Full Stack Web Development, Trybe - 2021

Internet Programming with JavaScript, DIO - 2020

Internet Programming with HTML5 and CSS3, DIO - 2020

Introduction to Git and Version Control, DIO - 2020

Essential Programming Logic, DIO - 2020
